WORK EXPERIENCE

Junior Frontend Developer

Sept 2024 — Jan 2025

ansrsource

- Delivered scalable, production-ready web applications, ensuring clean design, high performance, and seamless UX.
- Shipped features quickly with minimal supervision, consistently meeting deadlines in **fast-paced** environments.
- Developed a React-based portfolio platform with structured data handling, resulting in a **70% increase** in client engagement.
- Created automation tools like data scrapers and workflow scripts to reduce manual work and speed up onboarding.

Web Developer

Nov 2024 — Jan 2025

D2L (Desire2Learn)

- Developed 20+ interactive course units on **Brightspace LMS**, enhancing user engagement across global edtech learners.
- Leveraged **AI tools** to accelerate content delivery, reducing turnaround time while maintaining high quality standards.
- Contributed engineering insights in agile SCRUM calls, boosting **team productivity** and guiding peers with solutions.
- Solved UI/UX issues across Brightspace LMS modules using HTML, CSS, and JavaScript to ensure **responsive design**.

PROJECTS

BE-Commerce {Repo}

Oct 2024 — June 2025

- Built a full-stack eCommerce app with role-based access, **JWT**, **Google OAuth**, and secure **Stripe** payment integration.
- Designed a responsive UI with **Tailwind CSS**, featuring shimmer loaders, pagination, and **real-time order tracking timeline**.
- Created backend services with **Express** and **MongoDB** to manage users, products, password resets, and admin routes.
- Optimized SEO, accessibility, performance, achieving 100 Lighthouse scores and image handling through **Cloudinary**.

Rewarder {Repo}

Apr 2025 — May 2025

- Built **Rewarder**, a **MERN**-based gamified social app integrating **Twitter/Reddit APIs** for real-time content and user rewards.
- Developed a role-based auth with JWT, bcrypt and **protected admin routes** for secure user and content management.
- Added features such as save, report and share posts, profile edit, and platform-based feed filtering for a seamless experience.
- Delivered 100/100 PageSpeed scores and built admin **dashboards** with analytics charts for feeds, users, and activity metrics.

Ansrauct {Repo}

Nov 2024 — Dec 2024

- Built **Ansrauct**, a **React** app with **Vite**, **Tailwind**, and **Framer Motion** to showcase **ansrsource's** portfolio with dynamic UI.
- Developed carousel, video modals, masonry grids, and animated cards with swipe and hover features for rich interactions.
- Created a centralized data structure to power all sections, enabling easy edits and clean scalability across the application.
- Implemented responsive layouts for testimonials, courses, PDFs, and videos, ensuring consistency across all screen sizes.

FundVerse {Repo}

Sep 2023 — March 2024

- Won **3rd prize** at a national-level expo for innovation in blockchain-based crowdfunding and user-driven campaign creation.
- Built **FundVerse**, a decentralized application using **Ethereum**, **Solidity** and **React**, deployed on the **Sepolia testnet**.
- Achieved 100% decentralized functionality with tools like **Thirdweb** and **Hardhat**, ensuring a secure, scalable deployment.
- Implemented interactive forms to allow users to **create, donate, delete** and **manage** campaigns with full transparency.

EDUCATION

Sant Gadge Baba Amravati University

Bachelor of Engineering in Computer Science and Engineering — 8.49 CGPA

July 2020 — June 2024

Malkapur, Maharashtra

Municipal Jr. College, Malkapur

Senior Secondary (HSC) — 82.63%

July 2019 — May 2020

Malkapur, Maharashtra

G.V.M Vidyalaya, Malkapur

Junior Secondary (SSC) — 89.40%

June 2017 — May 2018

Malkapur, Maharashtra

ACHIEVEMENTS

Awarded a medal by college for consistent academic excellence, maintaining a CGPA of 8+ every semester.
Secured **2nd rank in final year** university exams and received a trophy for academic distinction and subject excellence.
Won **Tech Tantra 2024**, a national-level technical event, for presenting FundVerse, a blockchain-based crowdfunding platform.

CERTIFICATION

Namaste JavaScript Certification {Advanced JavaScript}

Nov 2023 — Jan 2024

Front-End React Developer intern at Skyscanner

Feb 2024 — Mar 2024

AWS Solutions Architect at Forage

Feb 2022 — Mar 2022
